your Business  
Through Trust**

# Cyber Security

[www.gfbholdings.com](http://www.gfbholdings.com)

## Why consider Cybersecurity?

**GFB** delivers a unified platform for endpoint protection, risk management, and threat intelligence for large enterprises and government agencies worldwide.

Unlike other threat intel companies that only provide data lakes and visualization, without any meaningful correlation or analysis, GFB delivers human-curated in-depth analysis, layered on top of the most comprehensive, exclusive sets of data from the Deep and Dark Web

### **Importance of what we do:**

Today, it's not enough to know what's happening IN your network. Organizations must have situational intelligence as to what's happening outside their environment - who's targeting them, how are they behaving, and who's working together to put your company at risk? We deliver Humancurated, in-depth analysis.

# Products and Services
